<b>FOR:</b>	Speed and Acceleration Monitoring Device Using Visible Laser Beams

**SUPPLEMENTAL REISSUE DECLARATION UNDER 37 C.F.R. § 1.175**

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name.

I believe I am an original, first and joint inventor of the subject matter that is described and claimed in U.S. Patent Number 5,812,249, issued September 22, 1998, and for which a reissue patent is sought on the invention entitled, "SPEED AND ACCELERATION MONITORING DEVICE USING VISIBLE LASER BEAMS," the specification of which was filed on September 22, 2000 as Reissue Application No. 09/667,693, and was amended on: (1) September 22, 2000; (2) January 22, 2008; (3) May 5, 2009; and (4) November 16, 2010.

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any Amendment referred to above.

I acknowledge the duty to disclose information that is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid by reason of the patentees claiming more or less than they had the right to claim in the patent.

At least one error upon which reissue is based is the unnecessary limitation of "visible" which was included in claims 1, 2, 5, 7 and 9, and was not needed for patentability.

Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicants.

I hereby declare that all statements made herein of my own knowledge are true and that all statements on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine and imprisonment, or both, under 18 U.S.C. 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
